Moultonborough Appoints New Waste Management Facility Supervisor

The Moultonborough Select Board is pleased to announce the promotion of Ken Filpula as Supervisor of the Moultonborough Waste Management Facility. Ken has worked for the Town at the Waste Management Facility since 2009. In May of 2015 Ken was appointed co-supervisor of the facility along with Dennis King.

Select Board Chairman Chris Shipp stated, "The Board is pleased that Ken has agreed to accept the Supervisors' position at the Waste Management Facility. Ken is a dedicated employee with a positive attitude and a focus on customer service."

The Town of Moultonborough will be changing the way it handles recyclables in May. Facility users will be using the single stream method of recycling where most recyclables are co-mingled in one disposal container rather than several different ones making recycling much easier to manage both at home and at the facility.
